

# Muhammad Ans Nadeem (Solution Architect & Team Lead)

## Contact Information:

Email: [business@ammag.tech](mailto:business@ammag.tech)

Phone: +1 (929) 361-6607

**Summary:** Results-driven Solution Architect & Team Lead with 4 years and 3 months of experience in C#, .NET Core, SQL, JavaScript, React.js, React Native, Solidity, and cloud platforms. Skilled in full-stack development, task management, code reviews, and debugging. Proficient in deploying applications to app stores and experienced in domain research. Adept at collaborating with cross-functional teams to deliver high-quality software solutions. Seeking a challenging role as a Solution Architect & Team Lead to capitalize on my proficiency in designing scalable architectures and empowering teams for seamless project delivery.

## Skills:

- C# (CSharp)
- .NET Core
- SQL (MSSQL, Postgres)
- JavaScript (ES6)
- React.js
- Next.js
- React Native (CLI and Expo)
- Solidity
- Azure
- AWS
- Alibaba Cloud
- App Deployment (Google Play Store, Apple App Store)
- Task/Sprint Management
- Git Management
- Code Reviews
- Domain Research

- Debugging

**Experience:** Solution Architect & Team Lead

- Developed and maintained web and mobile applications using C#, .NET Core, SQL, JavaScript, React.js, React Native, and Solidity.
- Collaborated with cross-functional teams to gather requirements, design architecture, and implement features.
- Utilized SQL databases (MSSQL, Postgres) for efficient data storage and retrieval.
- Developed and integrated RESTful APIs for seamless integration with other systems and services.
- Deployed applications to various app stores, including Google Play Store and Apple App Store.
- Managed tasks and sprints, ensuring timely delivery of projects and adherence to project timelines.
- Conducted thorough code reviews, ensuring code quality and adherence to coding standards.
- Utilized Git for version control and collaborated with team members on branching, merging, and resolving code conflicts.
- Conducted domain research to understand the specific requirements and challenges of each project.
- Troubleshoot and debugged issues to ensure the smooth functioning of applications.
- Kept up-to-date with the latest technologies and trends in the IT industry to drive innovation and enhance development processes.
